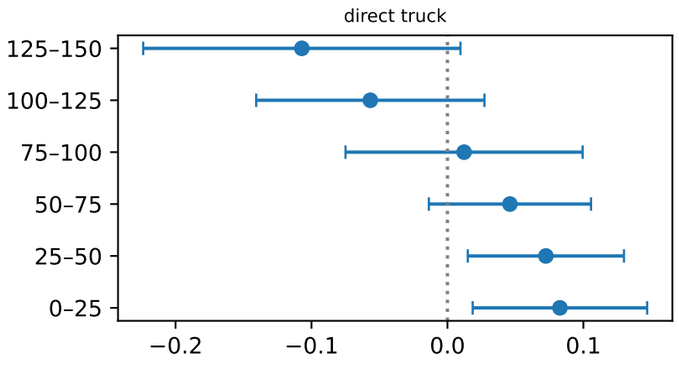
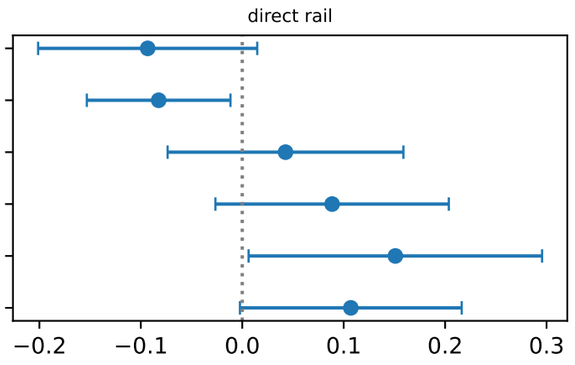
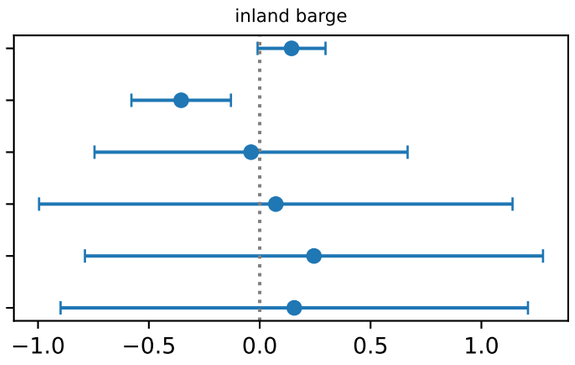
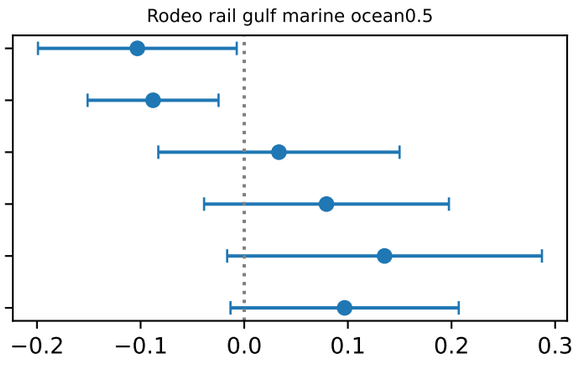
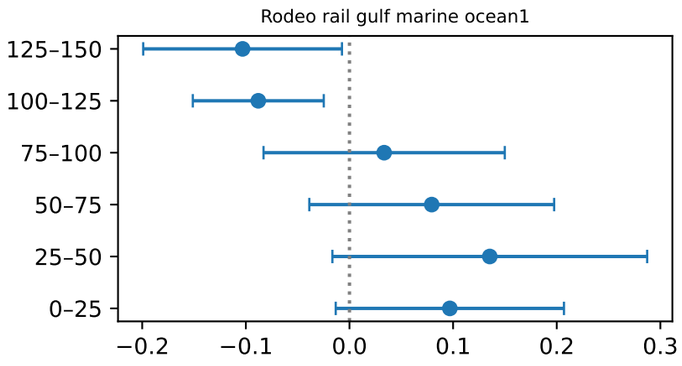
Calibrated freight proxy sensitivity: one-year lag

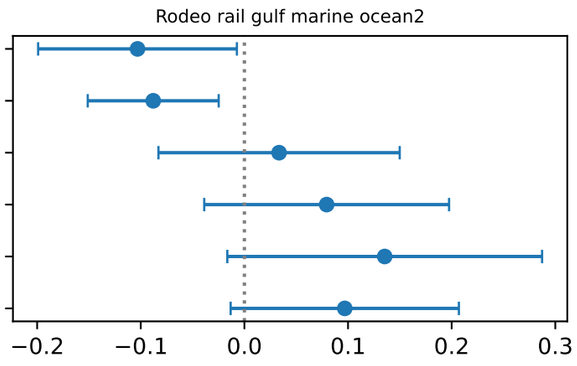


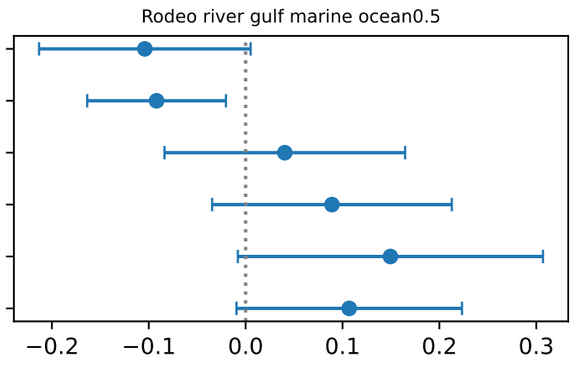


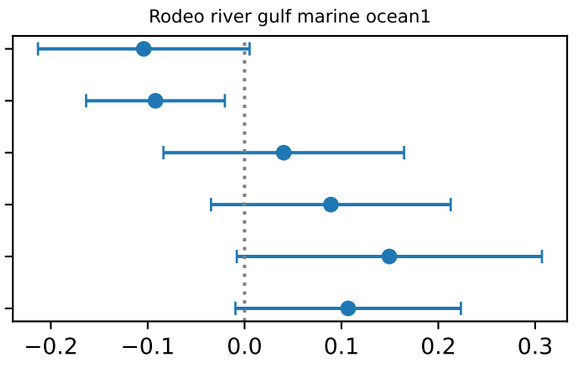


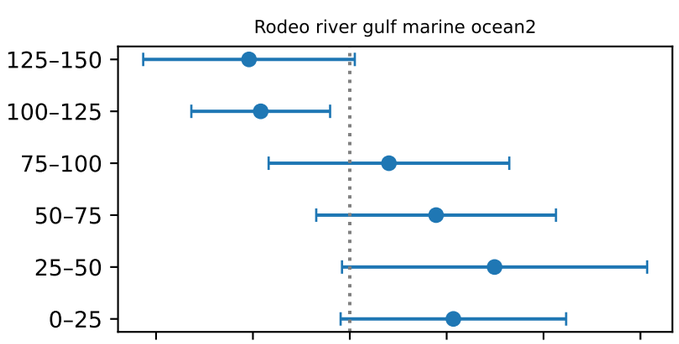


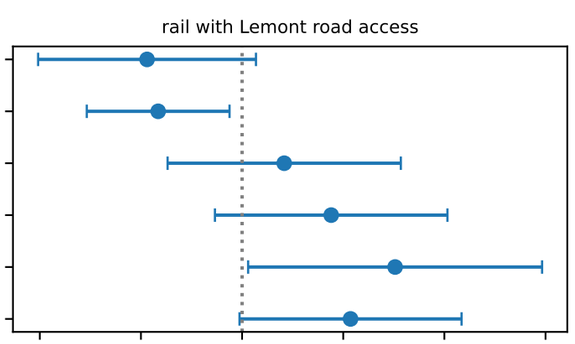


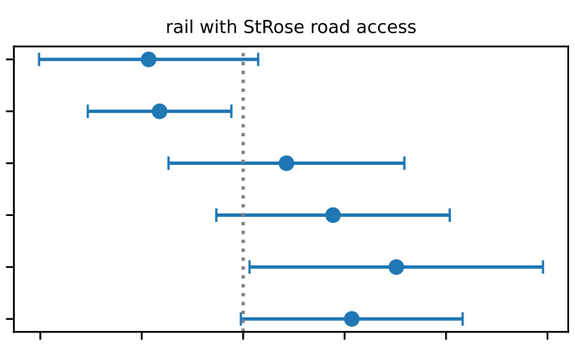


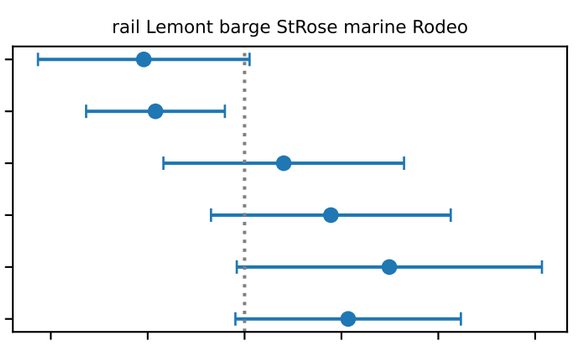


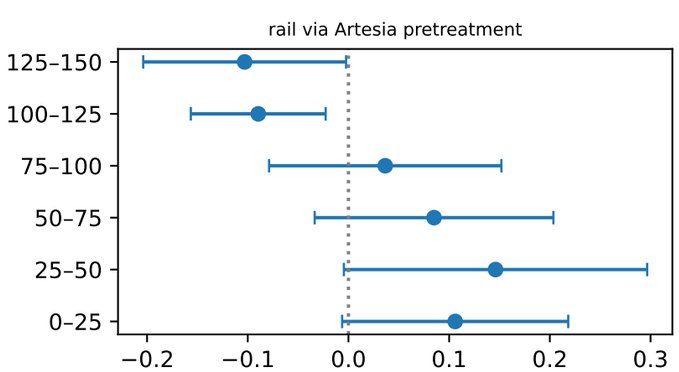


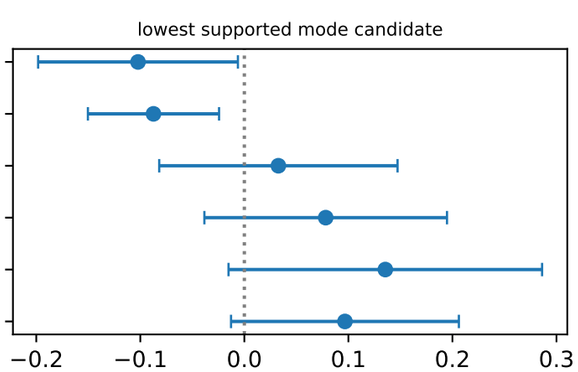


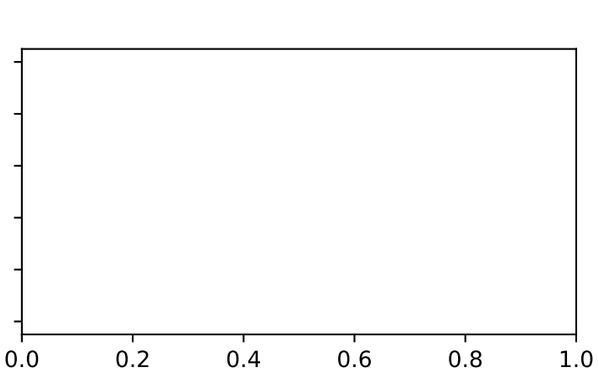


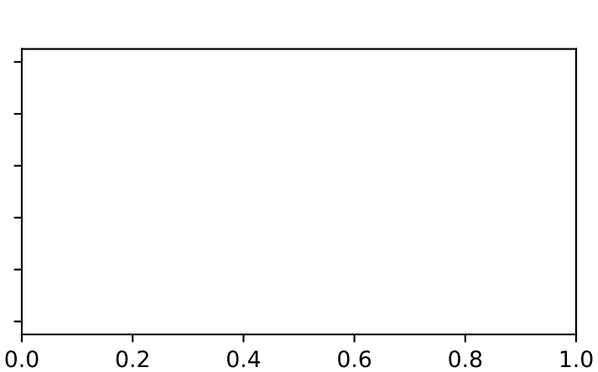












Exploratory TWFE, 2014–2025; crusher-clustered 95% intervals. Linehaul only; excludes handling/access. Multiple testing; not causal.
Relative decay: 100 truck-equivalent km; assumed scale. 2025 dose uses 2024 crush; all-known-recent bins omitted.

Soybean-share percentage points per 100 million gal/year exposure
